- a) By a competitor(s) (team captain in Synchronised Skating) entered for the competition concerned or a Team Leader accredited for the competition concerned;
- b) With the approval of such competitor(s) or Team Leader, by members of the committee organising the competition, or by official representatives of those Associations or Clubs which have entered competitors.

- ii) Protests against the result are permitted only in the case of incorrect mathematical calculation or incorrect application of ISU and/or NZIFSA rules resulting in the incorrect number of points being awarded to a skater, couple or team for an element or deducted in the case of a fall. A wrong identification of an element or of a level of difficulty, although it results in a lower or higher score, is a human error and not an incorrect mathematical calculation;
- iii) However, if the Referee learns:
 - a) prior to the beginning of award ceremony or prior to the official announcement of results if there is no award ceremony, that a human error relating to wrong data input by the Data Operator occurred or the ISU and/or NZIFSA Rules were incorrectly applied to the crediting of elements or the deduction of falls performed by a competitor, the Referee or Technical Controller may correct the error provided that the Referee or Technical Controller, both Technical Specialists and the Data Operator (in the case of an input error) all agree that there was an error;
 - b) within 48 hours after the award ceremony or results being published (whichever occurs later) that an incorrect mathematical calculation or incorrect application of the ISU or NZIFSA rules occurred, the Referee or Technical Controller may correct the calculation even without protest provided that the Referee or Technical Controller, both Technical Specialists and the Data Operator (in the case of an input error) all agree that there was an incorrect calculation or error in the way points were credited in the case of an element or deducted in the case of a fall. If such correction requires corrections of the final placements of the competitors, the corresponding medals and/or awards shall be changed accordingly.

222.9 Protests Regarding Composition of Officials Panels

Protests concerning the composition of the Judges and Technical Panels for National Championships must be lodged with the Officials Director or nominated representative before the first starting order draw for the event.

- a) A minimum of one and a maximum of two single jumps
- b) A minimum of one and a maximum of two spins

No axel type jump or double jumps or combination jumps are permitted. Credit for jumps and spins are based solely on the ability of such movements to enhance the chosen theme and support the music. No credit will be given for their technical difficulty.

The programme must be developed through skating skill and quality rather than through non-skating actions such as sliding on one knee or excessive use of toe steps which should be used only to reflect the character of the programme and to underline the rhythm and nuances of the chosen music. The skater must not remain in one place for more than five (5) seconds.

Elements exceeding the maximum number will be judged as an illegal element and receive a 1.0 deduction. Elements lacking in number will receive a 1.0 deduction.

Costumes should be simple, tasteful and selected to enhance the performance by appropriately reflecting the character of the music and theme.

- Props may not be used in any part of the programme. Any item that is held in the hand or removed during the performance is considered a prop. A hat worn throughout the programme is not considered a prop unless intentionally removed.
- Objects on the ice, thrown to the audience, placed on the boards or on the Judges' tables are not permitted.
- Costumes that contain particles that may mar or leave anything on the ice surface (feathers, boas, excessive beading) are considered unsafe and are not permitted.

Illegal elements

- Somersault type jumps
- Lying on the ice and prolonged and/or stationary kneeling on both knees on the ice.
