

600 SECTION - SYNCHRONIZED SKATING RULES

601 DEFINITION OF SYNCHRONIZED SKATING

Synchronized skating involves a team of nine to sixteen skaters (eight to sixteen for Adult and Mixed Age teams) performing various elements and transitions to music. "Synchronized skating" refers to the quality of skating, importance of unison, the accuracy of the formations and precision of the team, incorporated into a programme of a specified time limit. The objective is for the skaters to perform as one unit as opposed to individual soloists.

For definitions of the terms used in Synchronized Skating refer to current ISU Rules.

602 REQUIREMENTS FOR SYNCHRONIZED SKATING

602.1 Synchronized skating is judged and marked in accordance with the current edition of the ISU Special Regulations - Synchronized Skating and subsequent ISU Communications.
